KRISHNA KANTA HANDIQUI STATE OPEN UNIVERSITY

A Word from the Vice-Chancellor

The development of Human Resources is taken to be one of the primary national goals of our country. Education, health and attainment of minimum standard of living are the three basic components of Human Resource Development (HRD). RHD is considered to be the most important pre-condition for the socio-economic development of a country. That is why, the Government of India has given topmost priority to the overall expansion of quality education right from the primary to the level of higher education and research. It has also enacted the Right to Education (RTE) Act for universalisation of primary education and has laid special emphasis on open and distance learning to reach the unreached in the segment of higher education. Because, a knowledge-based society can only bring in positive changes in the lives of all the people of a country.

Keeping this in view, the Government of Assam established Krishna Kanta Handiqui State Open University (KKHSOU) through an Act of Assam Legislative Assembly in 2005, with a mission to provide opportunities of higher education through open and distance learning to all those who have been deprived of higher education for one reason or the other. KKHSOU is the fourteenth State Open University (SOU) in the country and the only one in the whole of North-East. Recognised by University Grants Commission (UGC), Ministry of Human Resource Development (MHRD) and Distance Education Council (DEC)— now renamed as Distance Education Bureau (DEB), this university practically started functioning from January 2007, and launched its first academic programme—BPP in January 2008 with an enrollment of 2623 learners. Currently, the university is offering six Bachelor's Degree Programmes, namely—Bachelor of Arts (BA) (both Major and Pass), Bachelor of Commerce (BCom), Bachelor of Business Administration (BBA), Bachelor of Mass Communication (BMC), and Bachelor of Computer Application (BCA); twelve Master's Degree Programmes; six Post-Graduate Diploma Programmes; nine Diploma and twenty Certificate programmes. This University has also taken an additional responsibility of conducting the two-year Diploma Programme on Elementary Education (DElEd) for the in-service primary school teachers in the State on the request of the State government under the implementation of RTE Act. All the degree programmes—both undergraduate and post graduate, diploma and post graduate diploma programmes are in credit based semester system. The total enrolment in all programmes during 2013-14 crossed 1 lakh.

This university has taken certain initiatives in curriculum reform particularly in Degree programmes so that the passed out learners of this university would have certain edge over those from conventional universities. Certain need based courses in the curricula for Degree programmes have been introduced, which we believe, will certainly enhance the employability of the learners. For example, a course on Spoken English has been made mandatory for all the subjects of degree programmes. Moreover, the University offers other courses like (i) Computer Application, (ii) Environmental Studies and Disaster Management, and (iii) Office Management which have been made integral part of the BA (Pass) Programme so that the graduates of this University can enjoy a better prospect in the job market. The University has always been stressing quality higher education. In order to assess our quality in terms of fuctioning of the University, the strengths and weaknesses of our programmes, learners support services, self-learning materials, technology support etc., we have been undergoing an assessment by the Commonwealth of Learning (COL) under its **Internal Quality Assurance and Improvement Model of**

Commonwealth of Learning (COL RIM). As you know, the Commonwealth of Learning is an inter-governmental organization of the Commonwealth Heads of government.

KKHSOU initially offered Master's Degree and PG Diploma Programmes in professional subjects such as—Computer Application (MCA, PGDCA), Business Management (MBA, PGDBM), Mass Communication (MMC, PGDMC, PGDBJ), Human Resource Management (PGDHRM), and Tourism and Hospitality Management (PGDTHM) in the academic session 2010-11. In the subsequent years, the University introduced Master's Programmes in Humanities and Social Sciences, viz., Assamese, English, Sociology, Political Science and Education besides, MSW and MSc-IT. From this academic session, the University is introducing Master's Programme in Economics and Applied Economics. All these Master's Programmes are in credit based semester system as per the requirements of the UGC. The course structure of the different programmes of the University has been designed as per the national curricula keeping in view the local needs and problems. The University has planned to introduce Master's Programmes in Philosophy, Sanskrit and History from the next academic session.
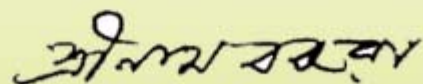

The self-learning materials (SLMs) are the most important components of the ODL system of education. and therefore, they should be of high quality. The SLMs of the Undergraduate programmes, except Computer Science and Management, are provided both in Assamese and English. For the Post-graduate programmes, the medium is only English. However, the University has made the provision for answering post graduate examinations of social sciences in both Assamese and English. I am happy to note that the SLMs of this University in Computer Application and Mass Communication are adopted by two State Open Universities of the country namely, Uttrakhand Open University (Uttrakhand) and Vardhaman Mahaveer Open University (Rajasthan).

Since KKHSOU is a State University, it has to carry out certain social obligations. As part of these obligations, we have offered free education to the jail inmates of the three district jails located in Guwahati, Jorhat and Abhayapuri. The University also provides free education to differently able learners who include the physically hadicapped and the visually impaired. The visually impaired learners are provided self learning materials in audio and Braille formats.

The University has established its first Regional Centre at Jorhat, and it has already started functioning to extend support to the learners and the study centres covering the districts of Golaghat, Jorhat, Sivasagar, Dibrugarh and Tinsukia.

I am very happy to inform you that this University has been able to bag the coveted award of *'Excellence in Institutional Achievement in Distance Education'* for the period 2011-13 from the Commonwealth of Learning in its 7th Pan Commonwealth Conference held in Abuja, Nigeria on 6th December, 2013. This is no mean achievement for a University within just six years of its existence. This is also a great incentive for all the stakeholders like learners, counsellors in various study centres, and the university staff who can contribute towards further improvement in quality. It is further to be mentioned that the **Competition Success Review** recently conferred the *CSR Top Distance Learning Institution of India Award for the year 2014* on the university. My vision has been, as always is, to make this University an institution of higher learning that really contributes to the growth of the nation, and to make one proud to be associated with it.

The motto of this university is *'Education Beyond Barriers'* irrespective of age, educational qualification and geographical boundaries, which we will always try to uphold. I, from the core of my heart, welcome the learners from all backgrounds to this University to enroll in the programmes of their choice.

Subject : **RECOGNITION OF DEGREES AWARDED BY OPEN UNIVERSITIES.**

Sir/Madam,

There are a number of open Universities in the country offering various degrees/diploma through the mode of non-formal education. The Open Universities have been established in the country by an Act of Parliament or State Legislature in accordance with the provisions contained in Section 2(f) of University Grants commission Act, 1956. These universities are, therefore, empowered to award degrees in terms of Section 22 (1) of the UGC Act, 1956.

A circular was earlier issued vide UGC letter N.F.1-8/92(CPP) dated February, 1992 mentioning that the Certificate, Diplomas and Degrees awarded by Indira Gandhi National Open University are to be treated equivalent to the corresponding awards of the Universities in the country.

Attention is further invited to UGC circular No. F1-25.93 (CPP) dated 28th July, 1993 (copy enclosed) for recognition of degrees and diplomas as well as transfer of credit for courses successfully completed by students between the two types of Universities so that the mobility of students from Open University stream to traditional Universities is ensured without any difficulty.

The UGC has specified the nomenclature of degrees under Section 22(3) of the UGC Act, 1956 to ensure mandatory requirements viz. minimum essential academic inputs required for awarding such degrees. A copy of Gazette Notification regarding specification of degrees issued vide No. 1-52/97(CPP-II) dated 31st January 2004 is enclosed. The details are also given in UGC Web site : www.ugc.ac.in.

May, I therefore, request you to treat the Degrees/Diploma/Certificates awarded by the Open Universities in conformity with the UGC notification on Specification of Degrees as equivalent to the corresponding awards of the traditional Universities in the country.

Yours faithfully,

Dear Vice-Chancellor,

As you are aware, the Open Universities have been established in the country by an Act of Parliament or State Legislature in accordance with the provisions contained in Section 2(f) of University Grants Commission Act, 1956. These universities are therefore, empowered to award degrees in terms of Section 22(1) of the UGC Act, 1956.

It has been brought to the notice of the Commission that the students who have done their M.A. from open universities are debarred by universities from registration for Ph.D. studies. This is most unfair in view of the importance attached to the Open University and distance learning in National Policy on Education, 1986. The programme of Action - 02 also aims at promoting the mobility of student among open universities and among traditional universities. This can be made possible only when there is a workable understanding between open universities for recognition of each other's degrees on reciprocal basis. A Memorandum of Understanding has already been signed between Universities of Pondicherry and Indira Gandhi National Open University which provides for recognition of each other's degrees and diplomas as well as transfer of credits for courses successfully completed by students between the two universities. The other universities may also make similar arrangements so that the mobility of students from Open University stream to traditional universities is ensured without any difficulty.

I hope that your university will make necessary efforts in this direction and let the Commission know the progress.

With regards,

Yours sincerely,

Subject : Recognition of Degrees / Diplomas of Open Universities

Dear Sir,

The Standing Committee at its 237th meeting held at Utkal University and the 68th Annual Session of the AIU in December, 1993 at the University of Delhi have decided in principle that the Degrees of the Open Universities be recognized in terms of the following resolutions:

"Resolved that the examinations of one University should be recognized by another on reciprocal basis, provided that the entrance qualification, duration of course and the general standard of attainment are similar to those prescribed by the recognized university."

"Further resolved that in case of Degrees awarded by Open Universities, the conditions regarding entrance qualifications and duration of the course be relaxed provided that the general standard of attainment are similar to those prescribed by the recognized university."

The decision is brought to the notice of the Universities for favour of appropriate action in the matter. The additional information, if required in this behalf, may kindly be obtained from the Registrar of the Universities direct.

Thanking You,

Your faithfully,

I. ABOUT THE UNIVERSITY
(in brief)

Krishna Kanta Handiqui : A Brief Profile

An illustrious son of Assam, Professor Krishna Kanta Handiqui is one of the greatest Sanskritists and Indologists of the world. Besides, he is an educationist with an uncommon ability and vision. During his life time he became a legendary figure and even to day the very name K.K. Handiqui stands for all the good and great qualities of a saintly person. A man with complete dedication to profound study, and never bothering about popularity, power and fame, Handiqui was a strict disciplinarian in the domain of educational administration. He always thought of acquiring quality rather than quantity. Handiqui served as the founder Principal of the Jagannath Baruah College, Jorhat, from 1930 to 1948 which was the first non-government degree college of the entire North-East region of India. From 1948 to 1957, Professor Handiqui served as the founder Vice-Chancellor of Gauhati University, the first University of the entire North-East India.

Born on July 20, 1898 at Jorhat in Upper Assam, he had his early education at Jorhat Govt. High School, and then at Cotton College, Guwahati. In 1917, he received a First Class in BA Honours in Sanskrit securing Prasanna Kumar Sarbadhikari Gold medal as a student of Calcutta Sanskrit College, only at the age of nineteen. In the year 1919, Handiqui got a First Class MA in Sanskrit from Calcutta University with special papers on Vedic literature. With this thoroughly classical bent of mind, Handiqui proceeded to England in 1920, and did his MA at the University of Oxford with honours in Modern History in 1923.

During his seven years sojourn in Europe, Handiqui spent four years in France and Germany. He studied and learnt many languages like Latin, Greek, French, German, Russian, Italian and Spanish. Instead of going for higher degrees he considered it worthwhile to learn as much of European literature and as many European language as he could. As a result of this love for learning languages Handiqui had the distinction of knowing as many as thirteen languages including his mother tongue. Even when he was in Europe, Handiqui's heart was with Assam, and he regularly contributed valuable articles to Assamese journals like *Banhi* and *Cetana*. His pioneer work in Assamese on Western literature and criticism acquainted the readers with various aspects of Spanish, Greek, Russian and German literatures.

The English translation of Sanskrit Mahakavya *Naisadhacarita* published in 1934 as the first ever translation, immediately made Professor Handiqui well known all over the world. *Naisadhacarita* composed in Twelfth century, is the toughest of all the Sanskrit epics. Handiqui soon got recognition as a scholar of international fame at the age of thirty-six. His first monumental work *Naisadhacarita* of Sriharsa has been very well received by the eminent scholars like Professor A.B. Keith (Edinburgh), Professor M. Winternitz (Prague), Professor M.B. Emeneau (California), Mahamahopadhyaya (Benares) and other distinguished scholars from home and abroad.

Yasastilaka and Indian Culture, the second monumental work of Professor Handiqui earned more eminence. The book was published in the year 1949. In fact, Sanskrit studies had been enriched by Professor Handiqui's contributions in *Nasadhacarita* and *Yasastileka*.

Handiqui's third monumental work *Pravarasena's Setubandha* was published by Prakrit Text Society as Prakrit text series XX in 1976 from Ahmedabad under the General Editorship of Professor H.C. Bhayani and Professor D.D. Malvania.

Professor K.K. Handiqui was a scholar of singular distinction, a pioneer Indologist and a philanthropist whose life epitomized an era marked by sacrifice, diligence and devotion to high principles. He is well known for his munificence to literary and educational foundations in the state of Assam.

It was therefore, more than befitting that the Government of Assam decided to establish a state open university with an objective to expand higher education among those who could not be covered or reached by the conventional system of education, and to name it after the great educationist. Environmental Studies and Disaster Management

Environmen and Disaster are the two most discussed terms in the world today. All living and non-living things we see around us contribute a part to our environment. But our environment is subject to ruthless destruction leading to many problems and even to disasters. Disaster is an event of occurrence due to natural as well as human-induced factors. Generally, it happens without any warning or with a warning within a very short period of time. All disasters cannot be prevented, but if adequate planning and prior preparations are

done, the impact of disasters can be minimized to a large extent. Therefore, in order to resolve these problems, conservation of the environment is of utmost importance. It is also necessary to study disaster management. On the other hand, environment conservation and disaster management are possible only if the general people are made aware about them. Therefore, the university has included a course on *Environmental Studies and Disaster Management* in all the Bachelor's Degree programme.
