

## LIST OF FIGURES

| <b>Figure</b> | <b>TITLE</b>  | <b>Page</b> |
|---------------|---|-------------|
| 3.1           | Map of Assam  | 124         |
| 3.2           | Map of Kamrup metro district  | 125         |
| 3.3           | Map of Kamrup rural district  | 126         |
| 3.4           | Sample distribution   | 129         |
| 4.1           | The identified behavioural problem children   | 152         |
| 4.2           | The common behavioural problems of primary school children  | 154         |
| 4.3           | The existence of behavioural problems of identified primary school children                             | 155         |
| 4.4           | The existence of behavioural problems in relation to different age group of the children                | 157         |
| 4.5           | The common behavioural problems of primary school children in relation to age                           | 160         |
| 4.6           | The existence of behavioural problems in relation to gender of the children                             | 163         |
| 4.7           | The common behavioural problems in relation to gender of the children                                   | 165         |
| 4.8           | The existence of behavioural problems in relation to the number of the children in the family           | 168         |
| 4.9           | The inattention behavioural problem in relation to the number of the children in the family             | 171         |
| 4.10          | The hyperactivity behavioural problem in relation to the number of the children in the family           | 173         |
| 4.11          | The ADHD behavioural problems in relation to the number of the children in the family                   | 175         |
| 4.12          | The conduct behavioural problems in relation to the number of the children in the family                | 177         |
| 4.13          | The anxiety/depression behavioural problems in relation to the number of the children in the family     | 179         |
| 4.14          | The existence of behavioural problems in relation to the birth order of the children among the siblings | 181         |
| 4.15          | The common behavioural problems in relation to the birth order of the children among the siblings       | 183         |
| 4.16          | The existence of behavioural problems of primary school children in relation to type of family          | 188         |

|      |  |     |
|------|--|-----|
| 4.17 | The common behavioural problems of primary school children in relation to type of family                             | 190 |
| 4.18 | The existence of behavioural problems of primary school children in relation to nature of family                     | 193 |
| 4.19 | The inattention behavioural problem of primary school children in relation to nature of family                       | 195 |
| 4.20 | The hyperactivity behavioural problem of primary school children in relation to nature of family                     | 197 |
| 4.21 | The ADHD behavioural problem of primary school children in relation to nature of family                              | 199 |
| 4.22 | The conduct behavioural problem of primary school children in relation to nature of family                           | 201 |
| 4.23 | The anxiety/depression behavioural problem of primary school children in relation to nature of family                | 203 |
| 4.24 | The existence of behavioural problem of primary school children in relation to size of family                        | 205 |
| 4.25 | The inattention behavioural problem of primary school children in relation to size of family                         | 207 |
| 4.26 | The hyperactivity behavioural problem of primary school children in relation to size of family                       | 209 |
| 4.27 | The ADHD behavioural problem of primary school children in relation to size of family                                | 211 |
| 4.28 | The conduct behavioural problem of primary school children in relation to size of family                             | 213 |
| 4.29 | The anxiety/depression behavioural problem of primary school children in relation to size of family                  | 215 |
| 4.30 | The existence of behavioural problems of primary school children in relation to educational qualification of mothers | 217 |
| 4.31 | The existence of behavioural problems of primary school children in relation to educational qualification of fathers | 220 |
| 4.32 | The existence of behavioural problems of primary school children in relation to occupation of mothers                | 223 |
| 4.33 | The existence of behavioural problems of primary school children in relation to occupation of fathers                | 226 |
| 4.34 | The existence of behavioural problems of primary school children in relation to monthly income of family             | 229 |
| 4.35 | The inattention behavioural problem of primary school children in relation to monthly income of family               | 231 |
| 4.36 | The hyperactivity behavioural problem of primary school children in relation to monthly income of family             | 233 |
| 4.37 | The ADHD behavioural problem of primary school children in relation to monthly income of family                      | 235 |
| 4.38 | The conduct behavioural problem of primary school children in relation to monthly income of family                   | 237 |
| 4.39 | The anxiety/depression behavioural problem of primary school children in relation to monthly income of family        | 239 |

|      |   |     |
|------|---|-----|
| 4.40 | The mean scores of the children having inattention behavioural problem in relation to some parenting styles                       | 242 |
| 4.41 | The mean scores of the children having hyperactivity behavioural problem in relation to some parenting styles                     | 246 |
| 4.42 | The mean scores of the children having ADHD behavioural problem in relation to some parenting styles                              | 249 |
| 4.43 | The mean scores of the children having conduct behavioural problem in relation to some parenting styles                           | 252 |
| 4.44 | The mean scores of the children having anxiety/depression behavioural problem in relation to some parenting styles                | 256 |
| 4.45 | The mean scores of the children having inattention behavioural problem in relation to some selected school related factors        | 260 |
| 4.46 | The mean scores of the children having hyperactivity behavioural problem in relation to some selected school related factors      | 263 |
| 4.47 | The mean scores of the children having ADHD behavioural problem in relation to some selected school related factors               | 266 |
| 4.48 | The mean scores of the children having conduct behavioural problem in relation to some selected school related factors            | 268 |
| 4.49 | The mean scores of the children having anxiety/depression behavioural problem in relation to some selected school related factors | 271 |
| 4.50 | The academic performances of the behavioural problems children  | 274 |
| 4.51 | The academic performances of the behavioural problems children along with their existence of behavioural problems                 | 275 |
| 4.52 | The academic performances of the children having common behavioural problems  | 278 |
